

REFERENCE MONITOR

PG-PRM28

Introducing the PRM Reference Monitor Series. Our PG-PRM28 is a 3-way passive design featuring the finest components including handcrafted double 12" radial drivers, a 3" midrange in a soft dome tweeter that together provides supreme clarity and mastering quality monitors for serious producers.

This monitor features the uniquely designed 12" drivers utilizing radial technology to allow exceptional power, handling and reliability.

Available in bamboo or a Baltic birch finish for the style minded.
